## **SUPPLEMENTARY INFORMATION:**

### **I. Abstract**

This request is for extension of a current information collection.

Federally permitted dealers, and any individual acting in the capacity of a dealer, must submit to NOAA's National Marine Fisheries Service (NMFS) Regional Administrator or to the official designee a detailed report of all fish purchased or received for a commercial purpose, other than solely for transport on land by one of the available electronic reporting mechanisms approved by NMFS. The information obtained is used by economists, biologists, and managers in the management of the fisheries. The data collection parameters are consistent with the current requirements for Federal dealers under the authority of the Magnuson-Stevens Fishery Conservation and Management Act.

### **II. Method of Collection**

Dealers submit purchase information through an electronic process by either the Web-based system as administered by the Atlantic Coast Cooperative Statistics Program, the computer-based trip ticket program issued by the NMFS or through a NMF- approved proprietary mechanism, a private industry program which has met NMFS requirements in being able to enter data and submit files in accordance to NMFS regulations.
